

A Level Courses from September 2017

Name:

Form:

Please complete this form once you have finalised your A Level subject choices and hand it in to Miss Simmonite (office in the library) no later than 9 am on Wednesday 1st February 2017. She will also have spare forms if needed. If you change your mind after handing in your form, please see Dr Rose to discuss your suggested change and we will do our best to accommodate them.

Arranging the subjects into option groups so that you can all study your preferred four subjects is a complex task and although we will do everything we can to meet your requests, we cannot guarantee that we will be successful in all cases. We hope to offer the full range of subjects listed on this sheet, but there needs to be sufficient students opting for a subject for us to be able to run the courses. If we have any problems we will discuss them with you and arrange for you to make alternative choices.

Choose four subjects from the list below and tick the appropriate boxes. Choose only 1 of Mathematics or Further Mathematics & Mathematics (Please note that you will be expected to have achieved a grade 9 in Mathematics at GCSE to study both Mathematics & Further Mathematics. This second combination should not be chosen lightly). Please do not choose any more than two of Economics, Government & Politics and Psychology. **Additional subjects are not possible as there are only 4 option blocks.**

You will be expected to have at least an A grade (grade 7 for English & Maths) at GCSE in your chosen subjects (or a related subject if it is a subject we do not offer at GCSE).

Art and Design: Fine Art		Government & Politics	
Biology		History	
Chemistry		Mathematics	
Computer Science (A2) – only if you have AS in KS4		Further Mathematics & Mathematics	
Drama & Theatre Studies		Music – joint with KECHB	
Economics		Physics	
English Literature		Psychology	
French		Religious Studies, Philosophy & Ethics	
Geography		Spanish	
German			

If there are spaces available, it may be possible to study Design & Technology (Product Design) at CHB. If this is something you would be interested in please tick below.

Design Technology (Product Design)
