Word Processor Policy (Exams)

Responsible Board	King Edward VI Camp Hill School for Girls LGB
Policy Officer	Janet Rose
Date Adopted	March 2025
Last Reviewed	March 2025
Review Date	March 2026

This policy is reviewed annually to ensure compliance with current regulations

Key staff involved in awarding and allocating word processors for exams

Role	Name(s)
Head of Centre	Ms K Stevens
Exams officer	Ms R Cloves
Network Manager	Ms N Clarke
SENDCo	Ms L Orr
Senior Leader	Dr J Rose

Introduction

This policy on the use of word processors in examinations and assessments is reviewed and updated annually, on the publication of updated JCQ regulations and guidance contained in the publications [Access Arrangements and Reasonable Adjustments 2024-2025](#) and [Instructions for conducting examinations 2024-2025](#).

References to 'AA' relate to JCQ *Access Arrangements and Reasonable Adjustments 2022-2023* and ICE to JCQ *Instructions for conducting examinations 2022-2023*.

Purpose of the policy

This policy details how the King Edward VI Camp Hill School for Girls manages and administers the use of word processors (including laptops and tablets) in examinations and assessments.

Principles for using a word processor

King Edward VI Camp Hill School for Girls complies with AA chapter 4 *Adjustments for candidates with disabilities and learning difficulties* regulations and guidance as follows:

(AA 4.2.1) The purpose of an access arrangement/reasonable adjustment is to ensure, where possible, that barriers to assessment are removed for a disabled candidate preventing them from being placed at a substantial disadvantage due of persistent and significant difficulties.

The integrity of the assessment is maintained, whilst at the same time providing access to assessments for a disabled candidate.

A centre **must** make decisions on appropriate access arrangements for their candidates. Although professionals from other organisations may give advice, they **cannot** make the decision for the centre. They will not have a working knowledge of an individual candidate's needs and how their difficulties impact in the classroom and/or in timed assessments. It is the responsibility of the SENCo to make appropriate and informed decisions based on the JCQ regulations.

(AA 4.2.2) Although access arrangements/reasonable adjustment are intended to allow access to assessments, they cannot be granted where they will compromise the assessment objectives of the specification in question.

(AA 4.2.3) Candidates may not require the same access arrangements/reasonable adjustment in each specification. Subjects and their methods of assessments may vary, leading to different demands of the candidate. SENCos must consider the need for access arrangements/reasonable adjustment on a subject-by-subject basis.

(AA 4.2.1) The SENCo must ensure that the proposed access arrangement/reasonable adjustment does not unfairly disadvantage or advantage the candidate.

(AA 4.2.7) The candidate must have had appropriate opportunities to practise using the access arrangement(s) /reasonable adjustment(s) before their first examination.

Purpose of the policy

This policy details how King Edward VI Camp Hill School for Girls complies with AA (chapter 4) (Managing the needs of candidates and principles for centres), (section 5.8) Word processor and

ICE (sections 14.20-27) when awarding and allocating a candidate the use of word processor in examinations.

The term 'word processor' is used to describe for example, the use of a computer, laptop or tablet.

The criteria King Edward VI Camp Hill School for Girls uses to award and allocate word processors for examinations and assessments

A candidate may be awarded the use of a word processor in examinations where:

- The candidate has an approved access arrangement in place, for example the use of a scribe/speech recognition technology
- The candidate has a firmly established need, it reflects the candidate's normal way of working and by not being awarded a word processor would be at a substantial disadvantage to other candidates

The use of a word processor

King Edward VI Camp Hill School for Girls will

- allocate the use of a word processor to a candidate with the spelling and grammar check facility/predictive text switched off where it is their normal way of working within the centre (AA 5.8.1)
- Awards the use of a word processor to a candidate where appropriate to their needs

For example, a candidate with:

- a learning difficulty which has a substantial and long-term adverse effect on their ability to write legibly
- a medical condition
- a physical disability
- a sensory impairment
- planning and organisational problems when writing by hand
- poor handwriting (AA 5.8.4)
- only permit the use of a word processor where the integrity of the assessment can be maintained (AA 4.2.1)
- not grant the use of a word processor where it will compromise the assessment objectives of the specification in question (AA 4.2.2)
- consider on a subject-by-subject basis if the candidate will need to use a word processor in each specification (AA 4.2.3)
- process access arrangements/reasonable adjustments at the start of the course, or as soon as practicable having firmly established a picture of need and normal way of working, ensuring arrangements are always approved before an examination or assessment (AA 4.2.4)
- provide the use of word processors to candidates in non-examination assessment components as standard practice unless prohibited by the specification (AA 5.8.2)

The centre will not:

- ▶ simply grant the use of a word processor to a candidate because they now want to type rather than write in examinations or can work faster on a keyboard, or because they use a laptop at home. (AA 5.8.4)

Additionally the use of a word processor would be considered for a candidate:

Additionally, the use of a word processor would be considered for a candidate:

- in the event of a temporary injury or impairment, or a diagnosis of a disability or manifestation of an impairment relating to an existing disability arising after the start of the course (AA 4.2.4)
- where the curriculum is delivered electronically and the centre provides word processors to all candidates (AA 5.8.4)

Arrangements at the time of the assessment for the use of a word processor

A candidate using a word processor is accommodated in a room for a smaller group of candidates with similar needs.

In compliance with the regulations the centre:

- Provides a word processor with the spelling and grammar check/predictive text disabled to a candidate where it is their normal way of working within the centre, unless an awarding body's specification says otherwise (ICE 14.20)
- (where a candidate is to be seated with the main cohort without the use of a power point) checks the battery capacity of the word processor before the candidate's exam to ensure that the battery is sufficiently charged for the entire duration of the exam (ICE 14.21)
- ensures the candidate is reminded to ensure that their centre number, candidate number and the unit/component code appear on each page as a header or footer e.g. 12345/8001 – 6391/01 (ICE 14.22)
 - If a candidate is using the software application Notepad or Wordpad these do not allow for the insertion of a header or footer. In these instances, once the candidate has completed the examination and printed off their typed script, they are instructed to handwrite their details as a header or footer. The candidate is supervised throughout this process to ensure that they are solely performing this task and not re-reading their answers or amending their work in any way.
- ensures the candidate understands that each page of the typed script must be numbered, e.g. page 1 of 6 (ICE 14.23)
- ensures the candidate is reminded to save their work at regular intervals. (or where possible, an IT technician will set up 'autosave' on each laptop/tablet (or where possible, an IT technician will set up 'autosave' on each laptop/tablet to ensure that if there is a complication or technical issue, the candidate's work is not lost) (ICE 14.24)
- instructs the candidate to use a minimum of 12pt font and double spacing to make marking easier for examiners (ICE 14.24)

(ICE 14.25)

The centre will ensure the word processor:

- is only used in a way that ensures a candidate's script is produced under secure conditions
- is not used to perform skills which are being assessed
- is in good working order at the time of the exam
- is accommodated in such a way that other candidates are not disturbed and cannot read the screen
- is used as a typewriter, not as a database, although standard formatting software is acceptable
- is cleared of any previously stored data
- does not give the candidate access to other applications such as a calculator (where prohibited in the examination), spreadsheets etc.

- does not include graphic packages or computer aided design software unless permission has been given to use these
- does not have any predictive text software or an automatic spelling and grammar check enabled unless the candidate has been permitted a scribe (a scribe cover sheet must be completed), or the awarding body's specification permits the use of automatic spell checking
- does not include computer reading (text to speech) software unless the candidate has permission to use a computer reader
- does not include speech recognition technology unless the candidate has permission to use a scribe (a scribe cover sheet must be completed)
- is not used on the candidate's behalf by a third party unless the candidate has permission to use a scribe (a scribe cover sheet must be completed)

Portable storage medium

(ICE 14.25)

The centre will ensure that any portable storage medium (e.g. a memory stick) used

- is provided by the centre
- is cleared of any previously stored data

Printing the script after the exam has ended

(ICE 14.25)

The centre will ensure:

- the word processor is either connected to a printer so that a script can be printed off, or have the facility to print from a portable storage medium
- the candidate is present to verify that the work printed is their own
- a word processed script is attached to any answer booklet which contains some of the answers
- if a candidate omits to insert the required header or footer, they are instructed to handwrite the details as a header or footer; the candidate is supervised throughout this process to ensure that they are solely performing this task and not re-reading their answers or amending their work in any way (ICE 14.22)

The centre will also ensure that where an awarding body may require a word processor cover sheet, this is included with the candidate's typed script (and according to the relevant awarding body's instructions). (ICE 14.26)

The centre may retain electronic copies of word processed scripts as the electronic copy of a word processed script may be accepted by an awarding body where the printed copy has been lost. However, the centre would need to demonstrate to the awarding body that the electronic file has been kept securely. The Head of Centre would be required to confirm this in writing to the awarding body. (ICE 14.27)

Accommodating word processors in examinations

Candidates using word processors (laptops) are internally accommodated in a smaller room with access to mains power:

Invigilators are informed before the exam that students will have a laptop and are given additional training on the procedure for candidates using a word processor in line with the instructions from the AA booklet and the ICE booklet.

Allocating word processors at the time of the assessment

Appropriate exam-compliant word processors will be provided by the IT department in liaison with SENCo and the exams officer.

In exceptional circumstances where the number of appropriate word processors may be insufficient for the cohort of candidates approved to use them in an exam session, the cohort will be split into two groups. One group will sit the exam earlier than or later than the awarding body's published start time.

The security of the exam will be maintained at all times and candidates will be supervised in line with section 7 of ICE.

Statement from Head of Centre on the use of Word Processors

The criteria King Edward VI Camp Hill School for Girls uses to award and allocate word processors for examinations

The 'normal way of working' for exam candidates, as directed by the Head of Centre, is that candidates handwrite their exams. An exception to this is where a candidate may have an approved access arrangement in place, for example the use of a scribe/speech recognition technology.

Awarding word processors

There are also exceptions where a candidate may be **awarded** the use of a word processor in exams where they have a firmly established need, it reflects the candidate's normal way of working and by not being awarded a word processor would be at a substantial disadvantage to other candidates.

Exceptions might include where a candidate has, for example:

- a learning difficulty which has a substantial and long term adverse effect on their ability to write legibly
- a medical condition
- a physical disability
- a sensory impairment
- planning and organisational problems when writing by hand
- poor handwriting

Allocating word processors

Appropriate exam-compliant word processors will be **allocated** by the IT department in liaison with the SENCO and the exams officer. In exceptional circumstances where the number of appropriate word processors may be insufficient for the cohort of candidates approved to use them in an exam session, the cohort will be split into two groups. One group will sit the exam earlier than or later than the published start time. The security of the exam will be maintained at all times and candidates will be supervised in examination conditions.
